

COMPREHENSIVE PLAN UPDATE COMMITTEE

September 21, 2022

Dear all,

Here is the agenda for our Public Workshop/CPUC Meeting on Wednesday (9/21). Please note that the Public Workshops, while essential for gathering the issues and concerns of the public, are also very much intended for the benefit of the members of our committee. This is our opportunity to ask questions of the participating experts who have been recruited by LaBella for this purpose, including Town Engineer Jon Hinman. This upcoming meeting will focus on very important areas including: municipal energy use, water & sewer infrastructure. Your participation is crucial. Please make every effort to attend and participate. Thank you.
